

I claim:

1. A flexible ball wrap arrangement for the covering of the entire surface of a sports ball, comprising:
 - a first section of ball wrap having an outer surface and an inner surface;
 - a second section of ball wrap having an outer surface and an inner surface, wherein each of said first and second sections of ball wrap are of generally figure 8 configuration so as to cover said entire surface of said sports ball.
2. The flexible ball wrap arrangement as recited in claim 1, wherein said outer surface of said first and second sections have a knitted loop material thereon.
3. The flexible ball wrap arrangement as recited in claim 2, wherein said inner surface of said first and second sections have a layer of adhesive thereon.

4. The flexible ball wrap arrangement as recited in claim 3, wherein said layer of adhesive has a removable protective film covering thereon to keep said adhesive layer fresh and unused until applied to a sports ball.
5. The flexible ball wrap arrangement as recited in claim 1, wherein said first section of ball wrap has a pinched waist mid-portion thereon.
6. The flexible ball wrap arrangement as recited in claim 1, wherein said second section of ball wrap has a pinched waist mid-portion thereon.
7. The flexible ball wrap arrangement as recited in claim 1, wherein said first section and second section of ball wrap are unitary and have a common central portion thereon.
8. The flexible ball wrap arrangement as recited in claim 7, wherein said first section and said second section are unitary in the shape of a four leaf clover.

9. The flexible ball wrap arrangement as recited in claim 1, wherein said first section of ball wrap and said second section of ball wrap each have peripheries which are adjacent one another in a ball wrapped configuration.
10. The flexible ball wrap arrangement as recited in claim 1, wherein said first section of ball wrap and said second section of ball wrap are arranged in a kit and are supplied in several dimensions so as to fit a plurality of sports balls.
11. The flexible ball wrap arrangement as recited in claim 10, wherein said kit includes a flexible mat to function as a target backing for said sports ball when said sports ball is hit towards said mat.
12. The flexible ball wrap arrangement as recited in claim 11, wherein said mat has at least one target area therein comprised of knitted hook or loop fibers so as to hold onto any wrapped sports ball struck thereagainst.

13. The flexible ball wrap arrangement as recited in claim 1, wherein said sports ball is comprised of a sphere of low density polyethylene.
14. The flexible ball wrap arrangement as recited in claim 1, wherein said sports ball is comprised of a whiffle ball.
15. A sports ball kit for the safe playing and hitting of a regulation sized sports ball, comprising:
 - a plurality of different regulation sized, lighter weight sports balls; and
 - a adherable covering for smooth attachment to at least one of said sports balls, said covering having a hook and loop outer surface.
16. The sports ball kit as recited in claim 15, including a sports ball target sheet having selected target portions thereon with corresponding hook and loop target portions thereon.
17. The sports ball kit as recited in claim 15, wherein said sports ball is comprised of a whiffle ball.

18. The sports ball kit as recited in claim 15, wherein said sports ball is comprised of a sphere of low density polyethylene, corresponding to a regulation sized sports ball.
